

**Date:** \_\_\_\_\_  
**Series:** Discover the Design  
Summer Year 1, Lesson 6

# God Designs the Family

**Take Home Point:** \*God fits us together in families.

\*Repeat this phrase throughout the lesson.

**Bible Event:** Genesis 2:18-25

**Key Verse:** Genesis 2:18a: "Then the LORD God said, 'It is not good for the man to be alone.'"

**We will help kids know:**

- God designed the family beginning with a husband and a wife.
- The reason God designed families, was not only so people would populate the world. He also wanted the family to care for one another with God's love.

**We will help kids feel:**

- God's love for them as they receive his love through their families.
- A desire to share God's love in their families.

**We will help kids do:**

- Speak openly about their families.
- Play a game that reminds them of how God has blessed their families.

Kingdom Quest Year 1 - Lesson 6 - 1

# Small Group Warm-Up: 15 minutes

**Purpose: *Get pointed in the right direction!*** Build relationships and help guests feel at ease. Do the learning readiness activity that will point your group in the right direction for the lesson.

When the kids arrive, play the kinesthetic learning game, “Knots.” The game works best when there are five to ten people in the group.

One child is the “Problem Solver” and steps away from the group. The other children come together in a close circle. Each child puts a hand in the circle and grabs the hand of someone not standing next to him. Then each child in the circle puts his other hand in the circle and grabs the hand of someone else not standing next to him. The group is now in a “knot.”

The Problem Solver’s role is to give the group directions to get “unknotted.” For example, he may say, “Step over these hands” or “Spin around and go underneath those arms.”

Can all the children remain connected together in those handgrips while they are “unknotted?” The unknotting happens as children shift around to create a circle. It is also possible for two circles to be formed.

After the children have been unknotted, have the group clap in celebration for solving the puzzle.

Gather the group back together to discuss:

**When we hold hands we can see how we are connected together. Today we are talking about families. How are families like this circle?**  
*(They are connected together, they feel close to each other, they work out problems together.)*

**Do you ever feel like your family gets all knotted up? Do you ever feel like family problems are hard to work out, like it was hard to unknot this circle? Can you give some examples?**

**We will talk about our families and how God can help us in our families. The first thing we need to remember is that God designed the family. *\*God fits us together in families.***

## Large Group: 20-30 minutes

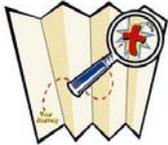

**Purpose:** *Help kids observe what the Bible says. Present the Bible event in creative fashion. Help kids begin to interpret what it means.*

### Overview

#### **Drama and Puppet Presentation:** “Dr. Fritz and Ze Family Machine”

Today Dr. Fritz will use a machine to see if he can create a family. Dr. Fritz will make mistakes in producing a family by putting the wrong ingredients in the family machine. With Mr. King’s help, Dr. Fritz gets it right.

## Small Group Application: 20-25 minutes

**Purpose:** *Help kids map out the meaning of the Bible event in their lives. Use the questions to stimulate discussion but don't feel tied to them. Allow the Holy Spirit to guide you. Include personal examples from your own faith journey. The example of Christ at work in your life will leave lasting impressions of how Christ can work in the children's lives.*

*Use your Bibles! Children need to learn how to look up references and follow along when scripture is read aloud. Allow for quality time of prayer at the close of the lesson.*

Play the memory game, “The Family Match Game.”

In advance, cut apart the eight matching pair of cards (see appendix pp. 12-13). Lay them face down on a table or the floor. It would be helpful to arrange the squares in columns.

Divide the group into two teams. The object of the game is to find the cards that match. Alternate between each team turning over two cards. If the team finds a match, the question on the card is read to that team. One or more people can answer the question. After a team answers the question, they keep the two matching cards.

Determine how much time you take for each discussion question. This will depend on the needs of the group. If one team seems to be answering all of the questions, ask the other team the very same questions. The purpose of this activity is discussion.

*These questions include the categories of observation, interpretation, and application. Note that some of the questions demand sensitivity and some call for insight. For example, question seven asks what you say to someone who says, “Two men can get married to each other and be a family.” Children today are commonly exposed to the concept that homosexuality is an alternative lifestyle for a family. God’s word speaks against this in Romans 1:27. Yet, God’s word says we are to love people and help them if they have broken lives or broken families.*

Question six asks, “How did God adopt you into his family?” The answer to that is found in Ephesians 1:5: “Because of his love he had already decided to adopt us through Jesus Christ. He freely chose to do this so that the kindness he had given us in his dear Son would be praised and given glory.” It was through his Son, Jesus, that we are adopted into God’s family. It can be pointed out, as well, that baptism is like the official adoption papers. (See Galatians 3:26-4:7.)

Use the game as a time for kids to share about their own families. Take time for questions that arise during the game. Again, make the link that God has adopted us into his family by sending his Son, Jesus, into the world.

If your group is answering the questions quickly and you would like to take more time, the game can be repeated with an entirely different outcome.

Remember to conclude with the key verse from Genesis 2:18a: “**Then the LORD God said, ‘It is not good for the man to be alone.’**” and the take home point: **\*God fits us together in families.**

Closing Prayer:

Thank God for fitting us together in families. Also thank him for adopting us into his family through our Savior, Jesus Christ.

**Safety and Security:** Safety and security procedures are important for each church to carefully define and implement according to their unique needs. The security, safety, illness and accident procedures described in this curriculum are provided for example purposes only and may not be appropriate, applicable or adequate for every situation. Each church is responsible for determining whether any security, safety, illness and accident procedures contained in the curriculum are appropriate, applicable or adequate for its unique situation. The activities described in this curriculum require adult supervision and may not be suitable for each child and each situation. Each church is responsible for ensuring that adequate adult supervision is provided for all activities and for determining whether an activity is appropriate for each child and each situation. Kids Kount Publishing disclaims all liability for the implementation of any procedures or the performance of any activities described in this curriculum.

## Large Group Presentation

### “Dr. Fritz and Ze Family Machine”

#### Drama and Puppet Presentation

This is the fifth drama in a series featuring the costumed character, Dr. Imonza Fritz. The character is truly on the Fritz as he is challenged to learn the truth of God’s creation.

The actor playing the part of Dr. Fritz can have lots of fun creating the character. The costume might involve a lab coat, crazy glasses, an oversized pen and clipboard, and wildly spruced hair. He would also do well to speak with an accent. The script is written with some accent changes such as turning the word “the” into the word “ze” and “where” into “vere.”

Accompanying the crazy scientist is his puppet, Albie, who is a crazy looking bird that over-exaggerates the ridiculous.

The large group presenter, Mr. King, is present to provide the correct answers and the serious questions.

Today Dr. Fritz will use a machine to see if he can create a family. This machine could be either a pedestal upon which people can stand or a large refrigerator box in which people can stand in. (Sound effects and lighting would make the machine extra special.)

Dr. Fritz will make mistakes in producing a family by putting the wrong ingredients in the family machine. With Mr. King’s help, Dr. Fritz gets it right.

*\*Note that the question here is, “How has God designed families to begin?” The answer is “with a husband and a wife.” Though families today are blended and headed by single parents, God’s design for families is a husband and wife in marriage together. We want to be sensitive about children who may not have both parents living with them. This is an example of how families can sometimes be broken, but God can still put plenty of love in those families. We believe the Bible also says that the homosexual lifestyle differs from God’s design for the family.*

**Mr. King:**     **Let’s discover today how *\*God fits us together in families.* Please welcome Dr. Imonza Fritz and his not-quite-so amazing bird, Albie.**

**Dr. Fritz:**     ***Hello, boys and girls.***

**Mr. King:**     **Welcome, Dr. Fritz. Let me give you our question for today.**

Albie:            I know! I know! I know!

**Dr. Fritz:**     ***You know vat, silly bird?***

Albie:            I know the answer!

**Dr. Fritz:** *He hasn't even given ze question yet.*

Albie: But I still know the answer.

**Dr. Fritz:** *Vat is it?*

Albie: A five-foot chocolate chip cookie!

**Dr. Fritz:** *Vat kind of answer is zat?*

Albie: An answer to any problem we might have...like "I'm hungry."

**Mr. King:** **Albie, please forget the five-foot chocolate chip cookie.**

**Dr. Fritz:** *Silly bird!*

**Mr. King:** **I want to discover how God designs the family.**

**Dr. Fritz:** *(interrupting) I know! I know! I know!*

**Mr. King:** **I have the answer right here in the Bible.**

**Dr. Fritz:** *But I have ze answer right here in my newest invention.*

Albie: Is it a five-foot cookie maker machine?

**Dr. Fritz:** *No, silly bird.*

Albie: A three-foot cookie maker machine?

**Dr. Fritz:** *No. Zis is Ze Family Machine. It vill create ze family.*

**Mr. King:** **But, Dr. Fritz, God created the family. I was just going to read about it right here in the Bible.**

**Dr. Fritz:** *(interrupting) But, Mr. King, I have ze machine to prove how ze family is made. Let me show you how it vorks.*

Albie: And if it doesn't make a family, maybe we can get a five-foot cookie out of it.

**Dr. Fritz:** *It vill vork fine, okay?*

***First, I need a volunteer from ze audience. I vill put in ze right ingredients and ve vill have ze family. (Places the volunteer in the “machine” and turns the machine on. A buzzer sounds a negative response.)***

***Vait a minute...Vat has gone wrong?***

**Mr. King:** Dr. Fritz, maybe I can help.

**Dr. Fritz:** ***Vell, it seems to not be vorking. I put zis child into Ze Family Machine and it is kaput!***

**Mr. King:** That’s because families do not begin with just a kid. (Nothing personal, kids.)

**Dr. Fritz:** ***But can ze kids be part of ze family?***

**Mr. King:** Of course! But God designed the family a different way.

**Dr. Fritz:** ***Ah, I know vat vay. Vait one more minute. (Excuses the child and brings up a grandpa.)***

***Now I have ze grandpa who vill begin ze family. (Turns on machine and it crashes.)***

**Mr. King:** Doctor, I want to read from the Bible. It has God’s design for the family. In Genesis 2:18 it says, “Then the LORD God said, ‘It is not good for man to be alone. I will make a...’”

**Dr. Fritz:** ***(interrupting) Vait! I zink I understand. Let me get someone else. (Dismisses the grandpa and brings up a man whose wife is also in the audience.)***

***Here is ze man. I vill put him in ze machine. Vill it vork now? (He tries the machine and nothing happens.)***

**Mr. King:** Please, Dr. Fritz. I was reading from God’s word. God said “It is not good for a man to be alone...”

**Dr. Fritz:** ***Vait! Of course! Ze man cannot make ze family alone. I must find him a companion. (He brings another man to put in the machine.) Now zis vill make ze family.***

**Mr. King:** I don’t think so! Guys can be great friends, but guys can never be married to each other according to God’s design.

**Dr. Fritz:** ***Ah yes, married! (He dismisses the second man.)***

**Mr. King:** Let me explain it from God's word. God said, "It is not good for the man to be alone. I will make a helper who is right for him." So God caused the man to sleep, took a rib from him, and formed the woman from the rib. God brought the man and woman together. When they are married, the man and woman leave their parents and start their new family.

**Dr. Fritz:** *I zink I understand. Let see if ze machine vorks. (He brings forward the wife of the man in the machine. When the husband and wife are together in the machine, the sound effects indicate success.)*

*Ah, success at last. I have created Ze Family Machine.*

**Mr. King:** Well, you have created a machine that tells you when you have the right ingredients to start a family.

*(Mr. King brings forward the child of the married couple and the dialogue continues. The child also stands in the machine.)*

**Dr. Fritz:** *Can ze children be part of ze family?*

**Mr. King:** Of course they can! That's one of the reasons God made marriage. He made marriage so husbands and wives could have kids.

**Dr. Fritz:** *But vat if ze mom and dad do not live together anymore? Can zey still be a family?*

**Mr. King:** Sometimes families break. Even though God designed families for everyone to stay together, sometimes they don't.

**Dr. Fritz:** *So can zey still be a family?*

**Mr. King:** Of course they can. Families are places where people love and care for each other. God can still help that happen even when families have had problems. *\*God fits us together in families!*

**Dr. Fritz:** *Vell, I have ze machine zat fixes the problem of ze families, right?*

**Albie:** Good! I have a problem.

**Dr. Fritz:** *Vat is zat?*

**Albie:** I need a five-foot chocolate chip cookie.

**Dr. Fritz:** *You need a five-foot kick in ze feathers, silly bird! I'm telling you...*

**Mr. King:** *(Interrupting)* Wait a minute! Maybe that's not such a bad idea.

Albie: Really?

**Mr. King:** Sure. Families are supposed to not only be there to have kids, but they are also there to care for one another. Chocolate chip cookies remind me of that. When I was a little boy I loved it when my mom gave me milk and chocolate chip cookies. It was a way that she showed she cared for me.

Albie: Well, what do you know? Finally someone is talking some sense!

**Dr. Fritz:** *Vat? Are you going cuckoo too?*

**Mr. King:** No, look here. Let's adjust these knobs and see what happens.

*(Noise sounds and lights flash. Mr. King goes behind the machine and pulls out some packages of chocolate chip cookies.)*

**Dr. Fritz:** *Vell, vat do you know. My machine has done something.*

Albie: But where's the five-foot cookie?

**Mr. King:** I think this is the best we can do. We'll pass out a cookie to everyone in small group as we think about how God made the family—making marriage for man and wife to be together and to have children. Every family is to be a place to show God's love. It's kind of like chocolate chip cookies and milk.

Albie: Good! Let's eat.

**Mr. King:** No, let's pray. Dear God, thank you for designing the family beginning with a husband and wife and making it a place of love. Thank you that *\*you fit us together in families*. Help all of our families be filled with your love. Thank you that because of Jesus, we're part of your family. Through him, you give us enough love to go around for everyone. In Jesus' name. Amen.

A package (or small bag) of cookies can be handed to each shepherd for kids to eat in their small group time.
